

Previously Arranged Titles

(updated 3/6/19)

Specific details about each arrangement (including audio samples) are available at <https://breezetunes.com>. The cost for each is \$300 (\$200 if using rhythm section only).

The use of any of these arrangements requires a valid custom arrangement license purchased from <https://tresonamusic.com>. Their licensing fees typically range from \$180 to \$280 per song and must be paid before you can receive your music. Copyright approval frequently takes 4-6 weeks, sometimes longer, so plan accordingly.

If changes to the arrangement are desired, there is an additional fee of \$100. Examples of this include re-voicing (such as from SATB to another voice part), rewriting band parts, making cuts, adding an additional verse, etc. **Arrangements may be transposed into a different key free of charge, provided that the change does not make re-voicing necessary**

To place an order, please e-mail garrett@breezetunes.com.

Tips for success using Previously Arranged Titles:

- Most arrangements can be made to work in any voicing, so don't be afraid to look at titles written for other combinations of voices than what you have. Voice parts can also be reduced or simplified for smaller ensembles.
- Adjustments often need to be made if you want to use a previously arranged title in a different show function than it was originally intended. This is especially true of arrangements written as a costume change or a transition number. I am more than happy to consult and make sure a previously arranged title fits with your show design.
- Please communicate with me if your band instrumentation changes dramatically during the season, especially when it comes to horn players. For example, if an arrangement was written for nine horns but you only end up with two in your band, the parts are probably going to sound awkward. However, there may be simple things we can do to make it work.

NEW RELEASES FOR 2019-2020 SEASON
