

Previously Arranged Titles

(updated 2/24/21)

Specific details about each arrangement (including audio samples and cost) are available at <https://breezetunes.com>.

The use of any of these arrangements requires a valid custom arrangement license purchased from <https://tresonamusic.com>. Their licensing fees typically range from \$180 to \$280 per song and must be paid before you can receive your music. Copyright approval frequently takes 4-6 weeks, sometimes longer, so plan accordingly.

If changes to the arrangement are desired, there is an additional fee of \$100. Examples of this include re-voicing (such as from SATB to another voice part), rewriting band parts, making cuts, adding an additional verse, etc.

Arrangements may be transposed into a different key free of charge, provided that the change does not make re-voicing necessary

For songs that do not have vocal rehearsal tracks, these can be created for \$150/song.

To place an order, send an e-mail to garrett@breezetunes.com or submit a license request on Tresona listing Garrett Breeze as the arranger,

Tips for success using Previously Arranged Titles:

- Most arrangements can be made to work in any voicing, so don't be afraid to look at titles written for other combinations of voices than what you have. Most SATB songs, for example, can be easily reworked for SAT.
- Remember that show function is one of the most important things to consider when purchasing an arrangement. For example, if something is labelled in the catalog as a Song 2/4, it is probably not going to work as a closer. There are exceptions, but make sure you're buying something that is going to fit your show, not just be a song you like.
- Please communicate with me if your band instrumentation changes dramatically during the season, especially when it comes to horn players. If, for example, an arrangement was written for nine horns but you only end up with two in your band, adjustments will need to be made or it will not sound as it was intended.
